TRADING COMPANY

Barzegar Trading Company is one of the leading players in the production and distribution of various types of plastic chairs in Iran. With the aim of offering high-quality and diverse products in the market, the company has secured a prominent position among its competitors. Utilizing modern technologies and advanced machinery, Barzegar Trading Company produces a wide range of plastic chairs, including domestic, office, educational, and industrial chairs. The company places special emphasis on the quality of its products. All products are manufactured in compliance with international standards and made from high-quality raw materials, ensuring durability and resistance to various conditions. By obtaining multiple quality and standard certifications, Barzegar Trading Company has enhanced its credibility in the market. Additionally, by participating in domestic and international exhibitions, the company has been able to introduce its products to a broader customer base.

A plastic chair, or polyethylene chair, refers to chairs made from polyethylene, a widely used polymer plastic in the industry. Key features of these products include impact resistance, water resistance, lightweight and portable design, and easy cleaning, making them highly popular.

## Key Features of Barzegar's Products

- **Ergonomic Design:** The chairs are designed with user comfort in mind, providing proper support.
